Description

ELA Soundness Policy: Covered

Vaccinated with 5way in November 2021 and wormed in November 2021. Zo (barn name) comes from Wyoming by way of South Dakota. He is very gentle and loves to learn. I am just to stiff in the joints to finish his training. If you look at the videos, you can see that he is very well ground trained. I was told that he bred two mares when he was a 2 year old. Also, he does not like pain and a stud chain across his nose is not needed and he will strongly object to it's use. He will meet you at the gate and is very willing to have the halter placed on his head. He is okay with his ears being handled. He is not a problem with mares being in the stalls next to his. He does not challenge fences when he is turned out. He is 5 panel negative for breeding.
