Description

ELA Soundness Policy: As Is

Smooth Cat San Tana - 2014 sorrel mare - Evi is a 7 year old sorrel mare out of Smooth Cat Rey and EV Sanskips Sylvia. She is the great granddaughter of High Brow Cat who has impacted the cutting (NCHA) industry and earning more than 84 million throughout his life time. His bloodlines date back to High Brow Hickory, Doc Bar, Smart little Lena, and Doc O'Lena. Smooth As A Cat who is Evi's granddad has also made an impact on the cutting industry earning more than 31 million with his offspring earning an average of 2 million. Smooth As A Cat has 177 championships and reserve championships under his title. Evi was started and finished by trainer Mike Ross of Mike Ross Horsemanship who has an outstanding track record with competing and who owns Smooth Cat Rey with lifetime earnings of \$501,874. Evi has a wonderful disposition and is a dream to ride. She is blind in one eye BUT, it does not effect her in anyway. This is the ONLY reason she sells as is. She can do honch turns, side passes, sliding stops, roll backs, collects nicely and is push button with your leg ques! She has been branded on, roped off of, and will work cattle all day! She rides out alone or in a group, she is extremely quick and responsive to whatever discipline you are doing. She goes through water with no fuss and is a family friendly mare. Husbands, kids, beginners can ride this mare with no problem! She has no issues with her feet and stands for the farrier. She would make an excellent broodmare for your breeding program or take her to compete with the best! She loads, clips baths with no problem. Evi is vet checked and 5

or 6 months safe in foal to a blue roan stallion, unfortunately there is no breeding certificate for the baby. This mare is an oasis in the desert! You will not find more competitive bloodlines and a well trained horse than Evi. She is the real deal! For more information please contact me with any questions. 503-949-4225
