Description

ELA Soundness Policy: Covered

6 year old 15.2 hand grade appaloosa mustang gelding (sire appaloosa, dam kiger mustang). I am told he can be registered. Just finished 60 days training with Gary Estes. W/T/C, side pass, working on opening gates. Calm, not spooky. Excellent trail horse, primarily what we used him for. I have ridden him bareback in the 100 acres behind our property countless times. He is not herd bound and will go out by himself! Update to date on Vaccines. Sells sound, lameness exam on file from Cascadia Equine, completed prior to 60 day training. Rebel has great feet and does not require shoes! Intermediate rider suggested to make sure he continues to progress after his training. I have only had Rebel for 6 months but have put many miles on him. I recently found out I am pregnant and will not have the time for him. The gal I bought him from had him since foal. You are welcome to call/text with any questions. 503-302-0561
