Story Phoenix is a 2008 Bay Quarter Pony gelding who is about 14.3hh. Said to be broke by previous owners, however we have not saddled him, nor ever tried to ride him, so we cannot confirm nor deny that. He is pastured with mares and geldings, but he can be a bit of a stinker over his feed at feeding times to protect his pile from the others (he does have herd related scrapes here and there from having these altercations.). Phoenix is a 2008 Bay Quarter Pony gelding who is about 14.3hh. Said to be broke by previous owners, however we have not saddled him, nor ever tried to ride him, so we cannot confirm nor deny that. He is pastured with mares and geldings, but he can be a bit of a stinker over his feed at feeding times to protect his pile from the others (he does have herd related scrapes here and there from having these altercations.). He gets along with everyone else, any other time. We have only hauled him once, and he loaded easily, but was nervous so we chose to haul him loose. He hauled and unloaded fine once we got him home. He has just been a pasture pet, but we don't want him, or any others getting injured during feeding time so he needs to find a new home where

he can have his privacy during mealtimes. He does have a hitch in the hind end when moving out at a trot, that he has had since we got him. He has locking stifles. He does not have any pain, swelling, heat, cut or any other sort of thing that would be associated with this movement (again, he does have scrapes here and there due to altercations during feed times). He sells AS IS due to this. Phoenix is gentle to handle, does great with the small kids during turnout/bring in time as far as leading goes. He's a super sweet horse who LOVES to be groomed and handled. SUPER EASY keeper! Feel free to contact us at 971-368-9430 with any questions you may have. Crown S Equine LLC 971-368-9430
