Story 3year-old quarter horse grade gelding , as sweet as they come. He's very in your pocket and likes attention. Ties and stands , bathes and great for farrier, loads right up in the trailer. He is it in your pocket puppy dog. His ground manners are on point! He is super respectful, ties and stands quiet all day long where ever you leave him, really good for a bath and being brushed, he is wonderful for the Ferrier, does fine barefoot but currently has a fronts on as we started taking him out in the mountains didn't wanna see his feet chip up on the rocks. He has been wormed every four months...

3year-old quarter horse grade gelding , as sweet as they come. He's very in your pocket and likes attention. Ties and stands , bathes and great for farrier, loads right up in the trailer. He is it in your pocket puppy dog. His ground manners are on point! He is super respectful, ties and stands quiet all day long where ever you leave him, really good for a bath and being brushed, he is wonderful for the Ferrier, does fine barefoot but currently has a fronts on as we started taking him out in the mountains didn't wanna see his feet chip up on the rocks. He has been wormed every four months and is

current, vaccinations beginning of the year. I can honestly say this boy is the whole package. He stands almost 15hh right now. Easy to pony off of others , he has been ponied all over the mountains happy to go through the creek been around cattle. He is easy to saddle , stands for mounting , walk trot lope both directions with no buck or attitude. Will go in any direction, very athletic and a real pretty mover. You won't find a nicer one at this age with such a great calm sweet demeanor. No vices on this guy he is great out in pasture in a stall hot wire Barbwire or pipe panel. He's really easy on fencing you can throw him anywhere and he gets along with everybody. Hauled him around a ton he is great in new places. Been rode outside a few times , on the road by traffic, used to the dogs running around, and farm equipment ,most of the time has been in the arena though. But he doesn't care where he's at or where he's being rode. He's just ready now for some miles to be put underneath him and give him a job. I trust the kids around him he is safe. Although he's a baby he doesn't act like it. Really good head on this guy. He would be a really cool junior rodeo type. First project horse for a young kid. He loves kids. Don't pass this boy up I promise you will love him. Sound smart and willing to learn. crfobert@gmail.com
