Mr. T is four-year-old John mule I purchased this past summer. I purchased him unstarted. I originally bought him to be my kid's mule but he is not suitable as a beginner's mule. He has about a dozen rides. While he does not know much, he has never offered to buck. His prior owner informed me that he is out of a QH mare by a spotted Jack and that he had packing experience. He has had his teeth floated and wolf teeth removed. He's good to work with his feet. his hind left foot has a permanent crack that does not effect his soundness. He is hard to catch outside of the corral. dave32g@yahoo.com
