**Story** 12-14 year old gelding. WTC crosses water logs etc. very flashy color and tons of chrome!! Hasn't been rode in 2+ years not enough time and too many horses, got put on the back burner. He has had years off so would recommend a restart. Not suited for beginners or children. Very sporty, lovely movement, and super athletic. Finish him your way and he'll be good at anything you point him at. Getting out of horses so just hoping for him to get a soft landing he deserves he is a very sweet boy and it very gullible to anything with treats. Just needs some TLC.
