Java is an eye-catching buckskin gelding that turns heads everywhere he goes. He's one of the sweetest ponies I have ever trained. In the twelve years I've owned Java he's never bucked, reared, bit, or even stepped on a foot, He craves attention, and he's very easy to catch, he comes to you. Java loads right up every time, great for the

farrier. Java has been to trail trial campouts, gamings, and extreme trail events. He runs A times in all the gaming events. Java loves kids, been used for leadline. He is a great step-up pony for an advanced beginner/intermediate kid or small adult, only due to his extensive training. This gelding carries flags, has been roped off of, ponied horses and goats, jumps, drags logs, has gathered cattle, been used to start colts, does flying lead changes, side passes, opens gates, and you can shoot off of him. Java is started on goat tying and loves it. Trail rides not bothered by deer, turkeys, or rabbits running out at the last second. I'm getting out of horses is the only reason Java is for sale. He's too amazing to be a pasture pet so Java is looking for his new best friend. He has no vices, no issues, and has always been sound. Java is very easy to train and is eager to please. Watch all his videos and be amazed! Contact me with any questions at (541) 660-2667.
