Silver is a unique colored gray John mule. He is quiet mule to be around and does great with the other horses and mules. He has been packed this last year up in the mountains and does well. He saddles easily and has never offered to kick. Silver has also been started riding and is doing great. He has a solid walk, trot and will lope with encouragement, never offered to buck. He is soft in the face and rides outside quietly. Sunriver.outfitters@gmail.com
