

Sale Name: April 14th Horse Auction

LOT 90 - Buck - 12yr - 15.1HH - Gelding

ELA Soundness Policy Covered

Registered No

Breed GRADE - Not Registered

Story I bought Buck in March for a children's lesson horse. He is not that guy. He's a little anxious, really bonds and gets herd bound, and needs some more work. He tends to pop up in front, or rear when his face is handled, and finds it difficult to relax. Hard work in the round pen has been helpful, and he's a kind horse under all that anxiety. He was rode through the sale, and the last description said he's great on trials. I can't tell you. He's very sweet on the ground, till he gets worried, then he's a little around in circles. He picks up all 4 feet, ties, bathes, and saddles. For any questions, I actually suggest calling the number from March. But I'm happy to talk to you about Buck.
